### PROFESSIONAL CARDS.

**THE PUBLISHER** is requested to call attention to the advantages to be derived from the PERMANENT insertion of Professional Cards in the MUSICAL TIMES.

Correspondents are constantly writing to the Office, requesting to have Teachers, Vocalists, and others, recommended to them; which information it would be very essential to furnish in the advertising columns, although to give it editorially would be invidious.

The price for Hire of Concert Rooms, the numbers the rooms will accommodate, &c., &c., is information which it would be both profitable to the Proprietors and convenient to Professors using them, if constantly advertised in a few lines.

### SCALE OF CHARGES:—

A Card can be inserted in 12 Numbers of the	
MUSICAL TIMES ... ..	if two lines, 16 6
Or in 18 Numbers, One Year ... ..	ditto 25 6
In 12 Numbers ... ..	if three lines, 21 0
Or in 18 Numbers, One Year ... ..	ditto 31 6
Every additional line, for 12 Numbers ... ..	5 6
Every additional line, for 18 Numbers, One Year ... ..	7 6
Single insertions, Sixpence per line.	

By this means 144,000 copies of a professional card would be printed and circulated every year, at a considerably less charge than they would otherwise cost for printing only, without distribution.

Advertisements must be prepaid, and should reach Dean-street by the 8th or 22nd of each month, to insure insertion.

THE HYMNAL NOTED.—The increased attention paid of late years to the music of the Church has necessarily led to inquiry into the best mode of reviving the use of metrical Hymns; and where the Prayer Book Psalter, pointed by authority, is sung (*as it always should be*), the ordinary metrical versions of the Psalms are no longer found to satisfy either the religious wants or the musical tastes of Christians. To supply the want universally felt, and very generally acknowledged, the Ecclesiological Society have laboured with great care, for some time past, to procure good translations of the Hymns which have been written by such holy men as S. Hilary, S. Ambrose, Prudentius, Sedulius, S. Ennodius, and S. Gregory, in the earlier ages of the Church; by Fortunatus, the Venerable Bede, S. Bernard, Hildebert, S. Thomas Aquinas, S. Notker, Godescalcus, and Adam of S. Victor, in mediæval times; and by Santolius Victorinus, since the revival of classical learning.

From these authors are derived the original metrical Hymns which the whole Western Church incorporated into her liturgy. The Reformers of the English Church wished, but were unable, to translate them; Archbishop Cranmer desired that as his "English verses wanted the grace and faculty which he could wish they had," the king "would cause some other to do them into more pleasant English and phrase."

The first part of a Hymnal, intended to supply from these proper sources an orderly course of Hymns for the Christian year, has now for some time been found of eminent service in those Churches where it has been used; and a second part, to complete the work, is just ready for publication.

The music is that to which, with slight variations, these Hymns have been universally sung; it is taken principally from ancient records of the English use, now extant in the British Museum. These melodies are eminently adapted for Congregational use, and have been proved to answer better on the whole than more modern tunes. The harmonies are composed on the model of the great Harmonists of the best periods of Church Music.

**BOYCE'S COLLECTION OF CATHEDRAL MUSIC.** The Precentors of Cathedrals, and the Directors of Choirs in "Churches where they sing," are respectfully informed that Dr. Boyce's Work, which has long been considered the most complete and useful collection of English Church Music, is now published in a variety of forms to suit every requirement. The contents and the succession of pieces accord precisely with the original copy, as published by Dr. Boyce, so that Cathedral Choirs, &c., already in possession of copies, may increase their number, in full confidence of the new ones corresponding in every respect. The new editions may be specified as follows, viz. :—

I.—The VOCAL SCORE has been reprinted, in its integrity, from Boyce; to which a separate Accompaniment for the Organ has been added under each score by VINCENT NOVELLO. In 3 Vols., bound in whole cloth, 42s. each.

II.—The SEPARATE VOCAL PARTS for each of the four voices—Treble, Alto, Tenor, and Bass—are printed so that one set may serve for eight or twelve persons. The economy of these Parts will be readily appreciated for the use of Choirs, or where numerous singers have to be supplied with copies. Price of each Vocal Part, bound in whole cloth, 25s.

III.—The SEPARATE ORGAN PART (in 2 Vols., price 21s. each), with the words in full between the Treble and Bass staff, will be found useful to those who wish these compositions as Organ Voluntaries, or for those who already possess the old Vocal Score, and to whom playing from score is inconvenient.

It is believed that in many Cathedrals the habit still prevails of making Manuscript Parts from the Vocal Scores; but this must arise from its not being known that good printed copies can now be purchased at less cost than the blank paper to make these manuscripts upon; or, in other words, it requires 3s. 6d. worth of blank paper to contain 3s. worth of printed music at the present reduced prices.

\* Each Service or Anthem may be had separately from this work, either in Score or separate Vocal Parts (Catalogues postage free for two stamps).

J. Alfred Novello, London and New York.

**TO FLUTE PLAYERS.**—A very beautiful FLUTE, by a first-rate maker, for 14 Guineas; cost double. Eleven Silver Keys, hung on pillars. To be seen and tried at 127, Upper Seymour-street, Euston-square, between 10 and 6. Gentlemen, sending their address, can be waited on.

**SIR JOHN HAWKINS'S GENERAL HISTORY OF THE SCIENCE AND PRACTICE OF MUSIC.**  
Price 35s., bound in Two Volumes. Supplementary Volume of Portraits, 14s., in paper covers; 16s., bound in cloth.

**I**N the present age, when public attention is so extensively directed towards the study and practice of Music, it has been thought that a new edition of SIR JOHN HAWKINS'S valuable HISTORY OF MUSIC would prove peculiarly acceptable, as being by far the best history of the art extant. It was formerly a very scarce and expensive book, but the present price, 35s. bound in two volumes, places it within the reach of both amateur and professional musicians. The large subject of a History of Music, embracing heterogeneous matter, and the result of wide research, makes it a storehouse to which a definite clue is required to give ready access. This will be found in the new and compendious Indexes, which have been carefully compiled, and added to the present edition. The whole matter occupies more than 1000 large pages of close print, with more than 200 wood-cuts, and provides the material for many a long winter evening's amusement by their perusal.
